

HEADS BROKEN; ARRESTS MADE

Riot in San Francisco Caused
by Alleged Act of Non-
Union Carmen.

WOMEN MADE COMPLAINT
**POLICE USED THEIR CLUBS
FREELY.**

San Francisco, Sept. 12.—Another scene of riot was enacted at the Twenty-fourth and Utah street car barn last night, following the arrest of William A. Bruce, a nonunion carman, on complaint of two young women that he had annoyed them by a remark which they passed. Bruce resisted arrest and was severely clubbed. The police allege that they were thereupon attacked by numbers of nonunion men. A riot squad of twenty-five patrolmen, under the command of Lieut. A. C. Tobin, came up and in the fight a score of heads were broken by clubs of the police and a number of arrests were made. Eventually the nonunion men were driven back into the car barn. The police claim that the carman who started the row is an ex-convict.

Mayor Taylor has increased the Mission patrol by twenty-two men, in accordance with his promise of yesterday. The pickets' tent at Twenty-fourth and Potrero streets, a block from the company's barn, is to be removed. It has been a headquarters for trouble for weeks past.

Chronicle Makes Charges.
The Chronicle today, commenting upon Tuesday night's rioting in the Mission district, when five nonunion car operatives in the employment of the United Railroads were shot by union pickets and policemen, charges flatly that the police ambushed the nonunion men and fought against them side by side with their union tormentors. The Chronicle points out that the patrolmen—Wade, Bigelow and Miller—who shot down the carmen, were appointed to the police force from the Teamsters' and Carmen's unions, soon after the commencement of the streetcar strike, when a union labor police commission and a crooked chief of police were in control.

"These policemen, says the Chronicle, shot from ambush, fighting side by side with the pickets of the carmen's union. The men they shot were engaged in the peaceful performance of their duty. After the fighting, the policemen proceeded to arrest the nonunion carmen, whom they had themselves wounded, but refused to take into custody any of the pickets of the carmen's union. To add to the outrage, the policemen in the first reports they made to the department, denied that they had fired a shot. Later they admitted that they had emptied their revolvers at the nonunion men."

EXTENSION OF TIME.
Chicago City Council Acts on Street
Railway Matter.

Chicago, Ill., Sept. 12.—At a special meeting of the city council today, it was passed by a vote of 46 to 4, to allow the Chicago Railways company an extension of 160 days in which to accept the street railway ordinance passed several months ago. The recent decision of the United States court of appeals, declaring that Judge Grosscup of the United States circuit court was going beyond his powers when he ordered the stockholders of the underlying company to surrender their stock, from the Chicago Railways company, which was formed to control the street car lines of the north and west sides of the city, rendered the company powerless for the reason that the time for accepting the ordinance giving it a franchise expired September 14 and it could not in that time perfect arrangements with the stock and bondholders.

UTAH APPLES IN NEW YORK
Cache County Agriculturists Receive
Order From Gotham for
Two Carloads.

Logan, Sept. 12.—County Fruit Tree Inspector Brody and his half brother, Mr. Rasmussen, entered into a contract today to furnish ten carloads of Cache county apples for the New York City market. The apples are to be of standard varieties and of prime quality. They will be obtained from various parts of the county, but the fact that it is possible to secure such a quantity of prime fruit here is the thing that causes surprise, for until recent years not much attention was paid to apple-raising. There are a great many young commercial orchards in the county now, however.

LACKED NERVE TO JUMP.
Embezzler Captured on Bank of Mississippi River.

New Orleans, Sept. 12.—Charles E. Laton, chief clerk in the office of the First district tax collector here, who disappeared two days ago, leaving a shortage of over \$600,000, was discovered this afternoon standing on the bank of the Mississippi attempting to summon up courage to jump in the water and commit suicide. He said he had started toward the river several times, but each time his courage had failed him. He made a full confession.

His wife lives at Carr Fork at Bingham. She has been notified, but has not yet been heard from. The identification was made by several of the miners from Bingham who had proceeded to O'Donnell's undertaking parlors upon the rumor that the body was that of Nils Nickla, another miner.

Wilson tried to crawl under a box car lying on a siding at the yards. It was moved by a switch engine that was making up a train in the yard. One wheel passed so completely over him that it was necessary to use jacks to release the body, which was crushed almost to a pulp.

TEN CENTS A HEAD FOR RATS
San Francisco Board of Health Will
Try to Exterminate
the Plague.

San Francisco, Sept. 12.—The board of health at a meeting this evening discussed further measures for plague eradication, and adopted resolutions as follows:

Offering a bounty of 10 cents on every rat caught in the city and county of San Francisco and properly delivered to the health officer.

Directing that no quarantine be established upon any building or dwelling from which a plague patient or suspect is taken, except during the brief period of fumigation. The objects of this order, as stated by the board, are to prevent foolish scares and to remove the temptation of inmates to scatter to avoid close detention.

The mayor, members of the board of supervisors and President Ophuls and Dr. McConkey of the health board, today visited the city and county hospital. As no plague cases have originated at the city and county hospital since August 27, the quarantine there is to be raised.

Dr. Rupert Blue of the United States marine hospital service arrived here today from Washington and will at once assume charge of the situation.

To date there have been twenty-three cases of plague and twelve deaths.

Jesse Knight Says the Moffat Road
Will Have Western Terminus

(Special to The Herald.)
Provo, Sept. 12.—Jesse Knight was asked yesterday what there was in the report published in a Denver paper to the effect that sites for a depot and terminal facilities have already been secured in Salt Lake for the Moffat road. He replied:

"Why, the road is not going to Salt Lake at all. It is going to stop in Provo."

He afterwards stated that, so far as he knew, no property had been secured in the capital for the purpose named, and that he did not think it had been secured.

This is also the opinion of others who will be interested with Mr. Moffat in the building of the Utah portion of it.

**NEGLECT COURT HEARING
FOR WEDDING CEREMONY**
A wedding interfered with the dispensing of justice yesterday morning in the district court. Four Austrians from Bingham were to appear before Judge Armstrong to answer to a charge of riot in connection with the disturbances at the saloons in Provo.

A young couple of the same nationality, accompanied by a host of friends, came into town also, and a marriage was to be performed after the four alleged rioters had their hearing in court. The excitement was too much for the court, and the judge had to be used to attending a marriage and appearing in court on the same day. They first went on their way to the city and county building. Then they went to the city and county building and were informed that their attorney had just left for his office. This discouraged them somewhat and they took in the marriage ceremony, ignoring the court proceedings.

In the meantime Judge Armstrong continued the case until this morning. The men are Steve Bobich, Mike Gulbric, Nick Krumpatrick and Mike Moisch, at least that is the way Clerk King spells them, but only the men themselves know the right way, and it does not matter much anyway.

The crime of riot is defined as aiding or abetting a disturbance of the peace and a defiance of law. The law against it is seldom invoked. The penalty is not more than two years in the penitentiary or a fine of not more than \$1,000.

A CURE AT DUBUQUE.

Miss Louise Westphal, of 233 Locust street, Dubuque, Iowa, says: "A few years ago I was in a very weakened condition, one that is common to many growing girls. I was nervous, lost weight, had a poor complexion and no appetite. I was completely run down and had no ambition at all. For months I was under a doctor's care but nothing helped me and my friends thought I was going into consumption. I had been sick about a year when Dr. Williams' Pink Pills were recommended to me. After taking three boxes I obtained relief and several more cured me. The sallow complexion disappeared. I had a good appetite once more and am now strong and healthy in every way."
